

50 Benefits of Snowflakes

1. Established in 1997, the Snowflakes program is the oldest and most experienced embryo adoption agency in the world.
2. The program was established to assist families with remaining embryos select an adopting family for them.
3. The program fee is a single, all-inclusive fee for all services detailed in this document.
4. We accept all embryos regardless of quality or quantity.
5. Snowflakes provides a positive option for adoption an infant and a shorter timeline.
6. Over 700 babies have been born into adopting families through the Snowflakes program.
7. We receive new sets of embryo placements every week.
8. As needed, we help families connect with a counselor to discuss their embryo placement.
9. Our streamlined processes insure accurate and quick services.
10. We always have embryos available for matching.
11. Our placing parents are required to follow FDA rules and regulations for embryo placement.
12. Snowflakes has an easy to use access system for infectious disease testing, required by the FDA.
13. All Snowflakes adopting families are evaluated by a rigorous home study process prior to proceeding into the matching phase of the program.
14. The time-tested Snowflakes processes provide both placing an adopting family's peace-of-mind.
15. Our agency, Nightlight Christian Adoptions, has been providing adoption services for 60+ years and we apply the best practices of adoption to our Snowflakes program.
16. Our team consistently receives high client survey scores for listening and caring for each placing and adopting family.
17. We accept all applications without discrimination.
18. Our team provides inquirers with a balance of truth and hope.
19. We encourage open communications between placing and adopting families.
20. Our requirement to collect medical records adds to the security of the placement.
21. We provide our families with a secure listening ear and a safe place to grieve.
22. Regular examinations and changes to our program processes speed you to your goal.
23. We are people of integrity who care about providing you with high quality service.
24. Surveys of families who have completed the program give the highest ratings 98% of the time.
25. Snowflakes team members are always seeking ways to improve the program.
26. We provide education to our clients, doctors, clinics and other adoption agencies.
27. Placement and adoption are paper-intensive services and our team helps you identify and complete all necessary documents to keep you moving forward.
28. Our contracts are legally sound for the placement of embryos from one family to another.
29. Our team does not use computer-generated matching, but matches based on family preferences and profiles.

30. Our pre-matching interview confirms your preferences in a match; no matches are ever forced.
31. We do not allow for closed or anonymous adoptions—both placing and adopting families have the security of knowledge.
32. A frequent refrain from our matched families is “it was a perfect match!”
33. Our care toward your family continues with assistance even after the placement/adoption is final.
34. We manage all aspects of embryo placement, including the possibility of what happens to remaining embryos in the adopting family.
35. Snowflakes maintains a permanent record of the placements and adoptions.
36. All-inclusive, competent, and valuable services at a low-cost.
37. Snowflakes maintains a positive, world-wide reputation.
38. Our team provides personal service and timely communications.
39. We have positive relationships with fertility clinics throughout the U.S.
40. Many of our referrals for both placing and adopting families are from their doctor or clinic.
41. We provide resources to support clients before, during, and after the placement or adoption.
42. Our adopting families receive three generations of placing family medical history.
43. We provide assistance in finding positive options for all inquirers.
44. The Snowflakes program offers a holistic approach to the placement and adoption of remaining frozen embryos.
45. Nightlight is a child-centric agency, focused on assisting the placing parents, the adopting parents, and the full-genetic siblings in both families.
46. We help families connect with one another helping them leave a legacy to their children.
47. We encourage direct communication between families for the sake of all parties involved: children and adults.
48. When necessary we are able to coordinate communication between families who are working to build a future direct communications relationship.
49. Snowflakes coordinates and arranges for safe shipment of embryos between storage facilities.
50. Our team prays for and with our families every week.
