

Do You Have Remaining Embryos?

One of your options is to donate your embryos to the family of **your choice**; allowing that family to have the baby they've been longing for. If you have remaining embryos, you may be facing your annual storage fee payment. Now may be a good time to consider embryo donation.

Will you donate your embryos
or continue to store them?

FERTILITY CLINIC

Average
annual storage fee
\$600

FAMILY'S CLINIC

Give the
gift of life -
PRICELESS

With your gift, the
adopting family can
become pregnant with
their future child

When you donate your embryos, you give the gift of life to another family. And, you get peace of mind knowing that your embryos have an opportunity to live the life you created them for.
